

# Vladislav Satsko

I work as both a PHP developer and a DevOps engineer. My key strengths lie in troubleshooting complex problems and resolving errors efficiently.

## Relevant Experience

PHP Developer | DevOps | SRE • **Freelance** Feb 2023 — Present

- Developed web scraping bots using Puppeteer and Cheerio
- Built websites and custom plugins based on OctoberCMS
- Created various bots for chat platforms such as RocketChat, Jitsi, and Telegram
- Configured and deployed VoIP systems; advanced knowledge of PBX platforms including FreePBX and VitalPBX
- Developed tools for bypassing internet censorship, including auto-deployment of OpenVPN, WireGuard, and Shadowsocks with traffic obfuscation
- Provided support and maintenance for Laravel applications

DevOps (Part-time) • **ExileHR** Sep 2020 — Feb 2023

PHP Developer (Part-time) • **ExileHR** Sep 2020 — Feb 2023

- Developed an HRMS (Human Resource Management System) using Laravel and Laravel Livewire
- Refactored and migrated an existing HRMS from Yii2 to Laravel
- Containerized Laravel applications with Docker and configured CI/CD deployment pipelines
- Built small-scale applications using Vue 3
- Managed and maintained servers running on Debian and Ubuntu
- Administered cloud infrastructure on DigitalOcean and YandexCloud
- I was engaged in improving email deliverability (Sendgrid, Mailgun) / tuning of mail servers (postfix, mailu)

PHP Developer • **Yksoft** Jul 2018 — Jul 2020

- Developed and maintained websites based on BitrixCMS
- Created semantic, adaptive HTML layouts for mobile and desktop using PixelPerfect guidelines
- Developed custom plugins for BitrixCMS
- Provided support for websites built on MODx, Joomla, Bitrix, and WordPress
- Maintained an eCommerce website built with CodeIgniter
- Built and supported CRM systems and microservices using Laravel and Vue.js 2
- Deployed and administered Linux servers (CentOS, Debian)

PHP Developer • **Printbar** Sep 2017 — Aug 2018

- Maintained and supported a custom-built CRM system developed in PHP 7.2
- Developed a front-end application that uses image sprites to automatically generate t-shirt thumbnails
- Created ERP modules for an internal CRM system using the Yii2 framework

Graphic Designer • **Printbar** Sep 2016 — Aug 2017

- Developed automated scripts for Adobe Photoshop CS6 using JSX (JavaScript for ExtendScript)
- Created custom modules and tools to enhance functionality and workflow in Photoshop CS6
- Designed graphics for t-shirt printing and apparel branding
